Prayer is your direct line of communication with God. The privilege of prayer provides you with the opportunity to take your petitions to the Lord in secret. When you pray an effective and fervent prayer, it will avail much. You may at times be faced with circumstances and/or situations that hinder your ability to pray, but even in those moments, Jesus Christ sits on the right hand of the Father interceding for us. If you feel you don't know how to pray, Jesus provides a model prayer. When you pray, begin by reverencing who God is, honor and adore Him, seek forgiveness and repent and then make your requests known to God. Prayer will go places you may never go, and touch people you may never meet. A lifestyle of prayer draws you closer to God, develops your ear for His voice, and a hunger for His presence. Thank God for the privilege you have to pray. Pray without ceasing. Watch as well as pray. God hears your cry and He will answer when you pray. Today when you pray, ask the Lord to show you how you should pray and who you should pray for. When He shows you these things, pray in faith believing God will do it.
